EXPERIENCE

Full Stack Developer

Raincloud global solutions | jan-2024
- Contributed to the development of responsive and dynamic user interfaces using **Angular framework.**
- **Developed comprehensive unit tests** utilizing Jasmine and Mocha frameworks to validate code integrity and functionality across frontend and backend modules, ensuring stringent adherence to quality standards in which covers **test coverage from 17% to 48%** of overall Codebase.
- Engaged in **Agile development Methodology**, including sprint planning, daily stand-ups.

Backend Intern

Profcyma solutions Pvt. Ltd | sep-2023
- **Developed RESTful APIs** for handling backend operations using Node.js and Express.
- Collaborated with frontend developers to integrate user-facing elements with server-side logic.
- Generated **database schemas** to support business requirements and data manipulation.
- Utilized **Node.js** for a robust backend, including real-time updates and secure **authentication**.

PROJECTS

Clothify

Link - https://clothify-f4851.web.app/

- Developed a responsive and user-friendly e-commerce platform for selling clothing online.

Mnemonics Wallet

Link - https://hd-wallet-git-master-modrics-projects.vercel.app/

- Generate Mutliple Public and Private Keypairs from single seed phrase like feature in Backpack Wallet.
